The World is Listening

The MD308 integrated amplifier is designed for the customer who demands the highest level of music reproduction, without the myriad of decisions about component and cable synergies. The MD308 with its ultra stable bi-polar amplifier section and pure class "A" preamplifier, ensure musical satisfaction that will stand the test of time and the scrutiny of the most discerning listeners alike.

Integrated Amplifier

Preamplifier

- Digital Volume Control
- Ensures long life and accuracy of volume output.
- Gold Plated RCA Outputs
- Permits the most accuracy in information transfer.
- Preamp Output
- May be used for an external sub woofer or bi-amping.
- Full Function Remote Control
- Adds ease of operation with a simplistic 6 button design.

Amplifier Section

- Toroidal Transformer
- Remains stable under demanding speaker loads and dynamic musical passages. Yields deep bass extension and control.
- Hand Matched Ultra Linear Components
- Tonally accurate, permits better timbral accuracy.
- Class A/B Design
- Efficient design ensuring long term component reliability.
- J Fet (input section)
- "J Fet's" produce natural harmonic structure in the music.

Features

Specifications may be changed without notice
 Warranty: Five (5) years.

Specifications

- Maximum Output 29 volts
 - Gain 34 dB
 - Frequency Response 20 Hz-20KHz +, -3 dB
 - Distortion 0.1 %
 - Signal to Noise 96 dB
